10-Key company features

1. Over 20 years ago, American Preparedness began building high quality emergency response products. By the end of 2009, we anticipate offering nearly 100 kits and 200 accessories.
2. American Preparedness introduced emergency and preparedness kits to the American Red Cross chapters, in the late 1980's
3. American Preparedness products are over 51% American made. As a commitment to your well-being, many of our products including our light sticks are tested stateside.
4. GSA & Red Cross schedules provides negotiated contract pricing.
5. The Datrex food and water products in the kits are approved by the US and Canadian Coast Guards and have a 5-years shelf life.
6. American Preparedness continues to serve its customers after the initial sale by providing update on product expiration dates and preparedness information.
7. Just-in-time manufacturing provided opportunities for customization of logos and/or specialized products.
8. American Preparedness has donated thousands of kits to the families of servicemen and woman and to the economically disadvantaged.
9. American Preparedness is a disabled veteran owned business where veterans continue to serve.
10. Fundraising partners include: American Red Cross, Project Protect - Ladies Auxiliary of the VFW, Air Force Sergeants Association, American Legion, Boy Scouts, as well as numerous church groups, hospitals, tribal affiliations and universities.

We are astonished by the performance of Polysphere. We have found no residue build up, no degradation or drying of our cherry wood surfaces and the product has definitely reduced the labor involved in cleaning patient care areas. We have been using the Polysphere product now for over a year and can report the following in confidence: 1) We have Zero (0) cases of Hospital Acquired MRSA (this is taken into consideration that Contact Isolation Precautions were fully utilized along with the product), 2) We have reduced the overall number of cleaning/disinfecting agents used in our facility, 3) We have no mold/mildew stains or growth in our showers, on shower curtains or on the exterior building surfaces, and finally - We have reduced the overall expense of cleaning our facility. We live by and will stand by the Polysphere product as a key ingredient in our Infection Prevention program.

No multi-level home should be without a fire ladder.

- This panic-proof Fire Escape was developed and patented by a firefighter, and is a must for all 2 story homes
-
- So simple even a child can use it.
- Unlike other emergency ladders, our fire escape ladder is guaranteed **not to tangle**, becomes rigid when stepped on, and will not sway.
- Stores easily under a bed or in a closet. Just hook it onto the window sill and pull the tear-away Velcro® strap for a quick, non-slip path to safety.
- Aluminum and plastic design is so lightweight even a child can lift it.

- *Folded: 30"L x 14"W x 6"D*
- *Opened: 12'6"L x 14"W*
- *10" from 1st step to window seal*
- *11½" hook to go over window seal*
- *Fits windows 14"W or larger with up to 9" deep windowsill.*
- *Holds up to 600 pounds.*
